

Steel Deck Machine Dolly

- .25" thick steel plate.
- 2" x .5" aircraft quality, heat treated steel wheels.

OVERALL DIMENSIONS

w: 8.5"
h: 2.5"
d: 11.75"

HMS-8

HeviMovers™ are made with precision ground and hardened steel rollers that form an endless chain which revolves around a central load-bearing plate in the frame. Weight of the load is transferred directly from load-bearing plate to rollers. This eliminates axle friction and requires less power to start and move the load. HeviMovers™ roll easily over cracks and pitted floor areas to reduce possible damage to goods.

HeviMover™ Machine Rollers

- Swivel-top for maximum maneuverability, full 360° rotation.
- Spring-loaded locking mechanism at 45° intervals.
- Only periodic cleaning and light re-oiling of roller chain needed.

OVERALL DIMENSIONS
