## BLUFF YARD RAMPS

BLUFF steel yard ramps work for loading from ground to dock or ground to truck, and can be portable or stationary. Capacity options start at 16,000 lbs.

## BLUFF PORTABLE DOCK/STEEL PLATFORM

Can be used in conjunction with a yard ramp, or as a free standing feature to increase loading capabilities.

## BLUFF STEEL TRUCK DOCK BOARDS

Provide an easy transition between a dock and truck. Standard capacities from 15,000 to 40,000 lbs.

### MODEL T STEEL DOCK BOARD

### SPEEDY BOARD® STEEL DOCK BOARD

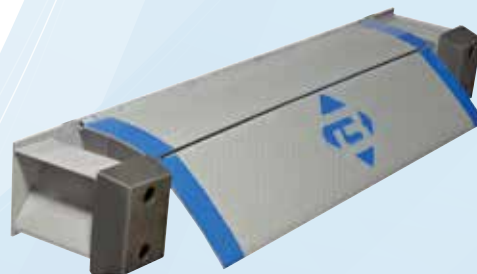

### MODEL R STEEL RAIL DOCK BOARD

Bridge the gap between a dock and railcar for safe loading and unloading of rail shipments. Capacities available from 15,000 to 90,000 lbs. Worksheet required.

## BLUFF EDGE OF DOCK LEVELERS

Correct the height difference between dock and trailer bed with a BLUFF EOD, while providing an easy transition. Capacities from 20,000 to 30,000 lbs.

## BLUFF ALUMINUM DOCK BOARDS AND DOCK PLATES

### ALUMINUM DOCK BOARDS

Ideal for low to medium dock loading applications, designed for use with forklifts or pallet jacks. Capacities from 10,000 to 15,000 lbs.

### ALUMINUM DOCK PLATES

Lightweight plate used to transition between a truck and dock, for use with hand trucks, pallet jacks or dollies. Not forklift rated.

## BLUFF CONVEYOR CROSSOVERS

Create a safe method for personnel to cross over busy conveyors. Worksheet required.

## BLUFF MEZZANINE STRUCTURES

Value engineered mezzanine solutions create vertical space that can be used to create in-plant offices, observation or equipment platforms, work stations, storage areas or conveyor supports. Many add-on options available. Worksheet required.

## BLUFF CANTILEVER RACK

Maximize space both vertically and horizontally with a Bluff cantilever rack. Worksheet required. (Shown in photo with Guide Rail protection.)

## BLUFF WHEEL RISERS

Eliminate unsafe below dock loading conditions with the use of wheel risers. Available in aluminum or steel. Worksheet required.

## BLUFF SAFETY EQUIPMENT

Protect valuable warehouse equipment and structures using Bluff's diverse offering of safety products. Powder coated safety yellow, with other standard color options available.

## NORDOCK® SAFETY PRODUCTS

NORDOCK® safety products include rear impact guard and wheel based vehicle restraints, run-off barrier lips, barrier gates, signal lights and LOGI-SMART® integrated control panels to control and interlock all products at the loading dock. PIT-HOOK™, TRUCK-LOCK®, POSI-CHOCK™, COMBI-LOK®, DOK-CHOCK™ and FALL-STOP™ products are all designed to increase safety by preventing premature departure and run off accidents at the loading dock. Vehicle restraints are available in manual or push button designs including the industry standard SMART-HOOK® with the least amount of moving parts that keeps working when power is lost.
