Upcoming Pricing Changes and USITC Regulation Update

Dear Valued Customer,

We hope this message finds you well. At Wesco Industrial Products, we deeply value your continued partnership and appreciate the trust you place in our products and services.

We are reaching out to inform you of important upcoming changes that may affect your future orders. Effective **April 16th 2025**, Wesco Industrial Products will be implementing adjustments to our pricing structure. These changes are driven by a combination of global market pressures and evolving trade regulations and tariffs.

Recent actions have led to changes in import tariffs and sourcing options, directly impacting the cost of key raw materials and components essential to our operations. As a result, we must make pricing modifications to maintain product quality, supply reliability, and regulatory compliance.

We are committed to transparency and want to ensure you are fully informed as these changes take effect. Wesco will provide a detailed list of products affected by the tariffs.

Updates forthcoming

Wesco Industrial Products anticipates further guidance from the government regarding updated procedures, processes, and documentation. Wesco will continue to monitor regulatory developments and will share updates promptly, allowing you to make any necessary adjustments to your processes.

How Wesco is responding

We understand the current environment brings a great deal of uncertainty. Please rest assured that Wesco Industrial Products is acting swiftly to align our operations with new regulations and ensure that duties to the United States International Trade Commission are accurately calculated and applied.

As always, we remain focused on delivering outstanding value and service. Our team is here to support you and address any questions you may have regarding these updates.

Thank you for your continued trust and partnership with Wesco Industrial Products.

Warm regards,

Mark Smith
